

DARMSTADIUM(Ds)

2019 NEWLY FORMED BOY BAND

By Rachel Kwok

1st of January, a newly formed boy band appeared in chemistry music globe, the band only debut one day already gain popularity from the general public.

Member of the band

There are in total 5 members in the band, the drummers LEAD Pb , the guitarist NICKEL Ni, the bassist BISMUTH Bi and the vocal COBALT Co. All of them together formed the atomic number 110---- DARMSTADIUM.

Originality of the band name

It is originally named **ununnium** by the manager **IUPAC**, however during the training for the four members, they four thought of the name, **Darmstadtium** , to represent themselves. The name was supported by npv entertainment, therefore debuted as this name.

Meaning behind the band name

-Instability = POSSIBILITY

Darmstadtium, is known the most unstable elements, carrying the meaning that the band is mysterious and unpredictable, in other words, it means that the band is full of different possibility and feasibility. They once said “ We four, are the king of the new band Era” , having a strong confidence, Let’s wait and see how this new boy band lead to a brand new Music Era!

-Radioactive = ADDICTIVE

Darmstadtium is radioactive, which will cause impact on human. However, the four oppositely bring positive influence the public and spread the spiritual value believed by the four to the people, to encourage them to pursue their dream and never let the fire of ambition be extinguished by obstacles. The band wish to make people addicted to them and support them unconditionally. Walk with them forever, and pursue dream together!
